4 EXAMINATION CONTINUED

5
6 Q. (BY MR. ALEXANDER) Mr. Hine, you
7 acknowledge you're still under oath?

8 A. Yes.

9 Q. John, you had indicated to me before we
10 got back on the record that there was some testimony
11 regarding NORM that you wanted to clarify. Would you
12 do so at this time.

13 A. We have had NORM testing on the property,
14 and the field has been -- because of something
15 unrelated to us -- has been found to have NORM on it
16 somewhere in the field. I'm not aware of where that
17 is.

18 The way the state does that is if you
19 have a NORM -- if you have one place in the whole
20 field that has NORM on it by test, then it's a NORM
21 field.

22 MR. MINYARD: When you say field, what
23 are you referring to?

24 A. By field I mean north via south, via
25 anything that's properly in the Jeanerette Field

1 area, which is probably a 5 by 5 square mile area.

2 Q. (BY MR. ALEXANDER) You don't know where
3 that NORM was found, do you?

4 A. No.

5 Q. We're going to come back --

6 MR. MINYARD: As far as documents,
7 it's my understanding that -- we don't have any
8 documents right now. But it's my understanding that
9 if there are documents from the Department of
10 Conservation they would be in the well files
11 previously produced to you.

12 As far as documents related to company
13 testing of the Blanchard lease and so forth, we have
14 requested those from the field office if there are
15 any. There may be one document.

16 MR. ALEXANDER: Okay.

17 MR. MINYARD: Hopefully we can get it
18 faxed up today if it's found.

19 MR. ALEXANDER: Okay.

20 Q. (BY MR. ALEXANDER) Now, let's turn back
21 to something we had discussed off the record. We're
22 going to --

23 MR. ALEXANDER: As I understand it,
24 it's agreeable with you, Chuck, to get the financial
25 records either pulled on my advice and copied or to
